DYVO

Digital technologies for validating young volunteers' competences

The DYVO project, funded under the Erasmus+ programme of the European Union, works towards enhancing the employability and social participation of young people as well as the quality of the work done by youth and voluntary organisations. The recognition and validation of competences acquired through non-formal and informal learning in the field of youth volunteering is in the project's main aim and will be in the focus for all project activities.

>> OPEN CALL FOR PARTICIPATION <<

The DYVO project offers opportunities for participation in local workshops and international events (in Italy, Austria, and Lithuania) for young volunteers and youth leaders. This is a unique opportunity for volunteering organisations that would like to motivate and train their volunteers, and enhance their impact quality and networking. Volunteers will receive mentoring and a certificate and will get the chance to participate in international trainings.

The call for participation is open from the 14th of July until the 15th of September.
