Digisel

Digitally Improving Social and Emotional Skills of Primary School Teachers

Digitally Improving Social and Emotional
Skills of Primary School Teachers

**DIGISEL
ERASMUS+ PROGRAMME**

PROJECT NUMBER:

2020-1-TR01-KA226-SCH-098576

Our reasons

The temporary lockdowns have changed the course of education from regular to a virtual one, resulting in the acceleration of the digital transformation which is a requirement of the 21st century, but it has been discovered during this crisis that teachers are not well-prepared to adapt themselves to the digital teaching approach.

The system of online teaching should be accompanied by the needed personal development skills for managing the best way: interpersonal communication processes, empathy, creative thinking, etc.

What we want

To support primary school teachers, both digitally, socially, and emotionally in response to the Covid-19 outbreak.

How

Improving the competences of primary school teachers within social and emotional development within digitalization via.

During the Project 5 educational modules for the primary school teachers will be developed.

-Improving students' learning capabilities in educational attainment in primary

-Effective online classroom management and inter-personal communication processes

-Developing empathy and behaviour among students

-Developing creative thinking and problem-solving skills

-How to use online methods, techniques and tools in primary school education
