PROJECT GENERAL DESCRIPTION

ESSS project aims to

- 1) evaluate and assess the needs of social scientists around Social Economy,
- 2) develop innovative tools that can support active citizenship in lifelong learning,
- 3) communicate to the participants the principles of Social Economy and the fulfilment of local needs,
- 4) transfer to them social and entrepreneurial competences and critical thinking,
- 5) train them on how to become social entrepreneurs, and finally 6) empower them to enter in the labour market.

ESSS RESULTS INCLUDE

- 1) production of training material and training workshops,
- 2) train social scientists acquiring new skills, knowledge and competences around social entrepreneurship
- 3) cultivate participants' own positive attitude and develop innovative ideas,
- 4) aspire participants to act as social entrepreneurs
- 5) enable participants to identify career paths in a new field, and 6) help participants to integrate into the labour market as entrepreneurs.
